## Human Resources

All aspects of personnel management are the responsibility of Human Resources including recruitment and placement, equal employment opportunity, employee relations, attendance management, benefits and services, and personnel transactions and records. Monitoring personnel policies and procedures as well as maintaining a good working relationship with the collective bargaining units is an important part of Human Resources. This is the second area of Internal Services.

## DEPARTMENT OF BUSINESS ADMINISTRATIO CONT'D

## Risk Management

Employee and retiree health care, workmens compensation and general liability insurance are just a few of the services provided by Risk Management which is part of Internal Services.

## Finance

The main function of Finance is to maintain the City's accounting records, revenue, accounts payable, sewer/refuse, parking fines and payroll records in an organized and detailed manner. Information must be stored accurately and efficiently to allow easy retrieval. Finance coordinates and controls the City's finances in a manner that is compliant with State and Federal regulations.

## Central Services

Central Services is the fourth component of Internal Services. Items such $\qquad$ as postage, janitorial supplies and telephones are included in this segment. Services/supplies that are used citywide are budgeted in this area to allow all departments/funds to share the expense.

## Information Services

Management of the City's information system and information technology including the City's electronic mail, calendar system, Internet and Intranet web sites are the responsibility of Information Services. Employees in this division develop and distribute applications, components and utilities throughout all departments. They handle the administration, growth and maintenance of the City's network including all aspects of both hardware and software. Information Services is the fifth component of Internal Services.

## Parking

The primary responsibility of the Parking Bureau is to manage all of the parking facilities owned by the City of York General Authority and the City. The parking facilities include three parking garages and fourteen surface lots. The bureau is also responsible for meter collection and meter enforcement, meter installation and maintenance.

## DEPARTMENT OF ECONOMIC \& COMMUNITY DEVELOPMENT

## Shilvosky Buffaloe <br> Acting Director

The Department of Economic and Community Development is headed by a director appointed by the Mayor. The director oversees and provides guidance and management to all the bureaus listed below. The goal of the Economic \& Community Development Department is to enhance the quality of life in the City through the development of strong neighborhoods and cultivate conditions that encourage a diversely vibrant economy throughout the City of York. The vision of the Department is to develop the City into a thriving business (i.e. medical, educational, industrial, commercial, service, and retail), residential, cultural, recreational, and tourist destination.

The City Redevelopment Authority falls under the direction of the Department of Economic and Community Development. Improvement of neighborhoods citywide is the ultimate mission of the Redevelopment Authority.

## Permits, Zoning and

## Inspections

The Bureau of Permits, Zoning and Inspections is responsible for all aspects of planning, development and construction codes. This Bureau conducts inspections, investigates complaints, reviews plans, holds public hearings, issues permits and certificates of use and occupancy. Licenses are issued for all health and food related establishments. The Bureau provides short-range and long-range planning expertise in the areas of housing, economic development, transportation, land use, urban design and public and civic infrastructure. The staff provides routine planning and engineering assistance to other City departments, agencies, neighborhood organizations and citizens. Mandated activities include the review of subdivision and land development plans, zoning applications, sewer planning modules and environmental reviews.

## Health

The Bureau of Health provides public health services in the City of York. These services are designed to complement traditional health care by focusing primarily on prevention. Health Bureau staff provide administrative services and Clinical services are provided at the Health Bureau Annex. In the community, staff provides educational activities, home visits, additional immunization clinics, environmental inspections and environmental health interventions. The Bureau develops an annual health plan, which is submitted to Pennsylvania Department of Health and the bureau assesses the health care needs of York City residents.

The Bureau of Housing Services primarily benefits low- and moderateincome households through the homeownership and rehabilitation programs funded by the U. S. Department of Housing and Urban Development. Home ownership programs include the First Time Homebuyer Downpayment and Closing Cost Assistance Program (the "3/2" Program), and Mortgage Credit Certificate Program. Rehabilitation programs include Critical Needs assistance for homeowners, and the Owner Occupied Rehabilitation Program. The bureau endeavors to develop strong neighborhoods through the preservation of the existing housing stock, the creation of home ownership opportunities, construction of new housing, and the promotion of the physical, economic and social welfare of the residents.

## DEPARTMENT OF PUBLIC WORKS

## James E. Gross

## Director

The Public Works Department is headed by a director appointed by the Mayor. The director has supervision and charge of the bureaus and divisions listed below. The mission of the Department of Public Works is to provide safe, clean, healthy, and productive buildings, infrastructure, programs and services as efficiently as possible for the People of York.

The Highway Bureau provides City residents and visitors with services, which will maintain safe traffic flow, directional signs/street markings and clean thoroughfares. The Bureau meets the special requirements of highway maintenance.

## Buildings/Electrical

The Buildings and Electrical Bureau provides safe buildings and streets for the employees and citizens of York. Duties include maintenance and monitoring of 600 City-owned streetlights, 3,100 GPU street lights, 9 Gamewell fire alarm circuits, 47 City-owned buildings/facilities and 102 signalized intersections and their associated wiring, signs and cabinetry.

## DEPARTMENT OF PUBLIC WORKS <br> CONT'D

## Fleet

The Fleet Division maintains the city vehicle fleet to the highest standards possible within the fiscal constraints.

## Environmental Services

The Environmental Services division works to provide a clean and beautiful City. Management of the refuse/recycling contracts and grants, large item collection and the yard waste collection program are a few of the services offered.

## Recreation / Parks

The Recreation \& Parks Bureau provides recreation programs and events to individuals and families, coordinates activities and facilities within the Department and with other various groups. The Bureau maintains all City parks and recreation facilities.

## Wastewater Treatment

The Wastewater Treatment Plant safeguards the environment and public health by maintaining the highest level of treatment at the lowest attainable cost to the customers. The plant treats and disposes the residuals removed from wastewater in a manner that meets the standards mandated by the PA Dept of Environmental Protection and the US Environmental Protection Agency.

## MIPP

The Municipal Industrial Pretreatment Program provides the service of inspecting and monitoring the industrial wastewater generated by the community. The program ensures that the sewer users are in compliance with all applicable local and federal regulations. MIPP also monitors compliance and when necessary issues citations or executes stronger enforcement measures.

## Sewer Maintenance

The Sewer Maintenance Division repairs, cleans and inspects the collection system. They provide utility marking, flood pump station monitoring and operation of the bascule dam.

## DEPARTMENT OF POLICE

## Wes Kahley

Chief

The Police Department of the City of York is committed to providing professional, efficient law enforcement services, the prevention and reduction of crime and investigating and solving those crimes. This is accomplished by partnering with the community and by utilizing resources to the greatest extent possible.

The Police Department of the City of York has the responsibility of protecting life and property in the City of York and providing professional, dedicated law enforcement services throughout the City.

The department is comprised of the Operations Division, Uniformed Patrol, Investigative Services, Administrative Services, Community Services, Traffic Safety and Police Records.

Inspectional Services (Internal Affairs) is responsible for all internal investigations and background checks on prospective employees and is directly under the direction and control of the Police Chief.

## DEPARTMENT OF FIRE/RESCUE SERVICES

## David Michaels

Fire Chief

The Department of Fire / Rescue Services provides effective response to situations that threaten the safety and health of the citizens of York due to fire, hazardous conditions, environmental emergencies, medical emergencies and similar events. The Department prides itself with the pro-active approach to prevent fires and injuries through educational programs and the administration of applicable codes.

Property inspections and licensing of all tenant-occupied residential properties are the responsibility of the Department as well as various Emergency Management activities.

## Mayor's Budget Message

As required Article XVIII, Sections 1801 to 1811.2 of the Third Class City Code and Optional Third Class City Charter Law, I submit the City of York's proposed budget for calendar year 2015.

We have worked diligently with cabinet members, and the Budget Team to develop this balanced budget, mindful of our City's needs and to provide the best and most effective service given our financial constraints.

The City's revenues simply do not keep pace with the growing costs and liabilities. We took the steps necessary to close this financial gap and maintain our level of service. In order to balance this proposed 2015 budget, we were forced to hold the line in our department expense budgets wherever possible and make draconian personnel cuts.

The total 2015 proposed budget for the City of York is approximately $\$ 96$ million, with a General Fund budget of over $\$ 41$ million. A complete copy of this proposed budget is available at www.yorkcity.org. After much deliberation, cuts and more personnel cuts this budget is with no increase in property taxes.

All $3^{\text {rd }}$ Class Cities in Central Pennsylvania continue the difficult challenge of paying for necessary public services with revenue from an antiquated and inadequate revenue generating system. The financial picture for our sister cities in the region are very similar to ours and continue to deteriorate. I cannot overstate this enough.

As your Mayor, over the past year, I have heard loud and clear that more property tax increases in the city of York are out of the question. I have heard struggling homeowners talk about the fear of losing their houses. I have seen how high taxes squelch the life out of exciting real estate development projects. I have heard "enough is enough" over and over and over from people who care deeply about our city. I have been urged to confront and expose just how bad the situation is. I have heard city council members express a strong desire to actually reduce property taxes, a sentiment I share because we all know that we are strangling the life out of our city.

A combination of a major, retroactive contract arbitration award for firefighter pay and benefits, combined with the voracious growth of compensation for police and other city employees, put us in the position where the day of reckoning has come.

This was a painfully difficult budget process. We will continue to work with City Council and our philanthropic community to minimize the impact going forward while providing the absolute best possible service to you, our citizens.

Respectfully,
C. Kim Bracey

Mayor

## CITY OF YORK

## PENNSYLVANIA

## 2015 BUDGET

## EXECUTIVE SUMMARY

## Introduction

It is my honor to present the proposed 2015 budget for the City of York, Pennsylvania. The challenge of providing effective public safety and quality of life services at a price point that is fair to our residents is a battle of fiscal imbalance that plagues many land locked inner-city municipal governments. The proposed budget does not raise real estate taxes, however; citizens of our great City will face a $6 \%$ increase in sewer and refuse fees. Furthermore, residents and non-residents alike commuting into the City will face a $0.25 \%$ increase in the effective earned income tax rate. In order to keep the revenue increases as low as possible, sacrifices had to be made to keep expenses in line with expected revenue.

As we have been predicting publicly for several years, and as recently confirmed by the work that York College did for the York County Community Foundation, a number of factors have combined to make 2015 the end of the line for any quick fixes or financial gimmicks to balance the City of York's budget. A combination of a major, retroactive contract arbitration award for firefighter pay and benefits, combined with the voracious growth of compensation for police and other City employees, put us in the position where the day of reckoning has come. The situation is further exacerbated by contractual requirements that limit flexibility in where these cuts can be made. A stagnant and often declining tax base cannot provide enough funding to fight a regional crime problem, take care of the oldest infrastructure in the county, and pay health care and pensions benefits to more retirees than active employees.

## The Budget Process

The 2015 budget process began in July 2014 with preliminary meetings scheduled with each department to discuss their capital needs for 2015 and beyond. In August, department directors and/or their appointed designees began calculating their 2014 year end projections and their 2015 budget requests. This information was entered into the financial management system during the month of September. During the first full week in October, Mayor Bracey held week long public hearings designed to give each department the opportunity to present the case for their budgets and to explain to the Mayor, the budget team and the public at large any large variances in comparison to the 2014
initial budget and/or historical trends. The cumulative effect of the budgets presented by each department left a preliminary 2015 shortfall of $\$ 7,014,837$. Interesting facts emerged and continued as the budget team used the next month to review the requests one line item at a time. In order to close the gap, tough decisions were made, positions were cut and ultimately the city will have to sacrifice on the quality of certain services that were previously afforded to us through the full complement of staff.

This budget makes it painfully clear. With the reduction of 79 total positions from City government, including 8 from our fire department, 46 from our police department, and 25 more from the rest of City government, the 2015 budget reduces the total City staff by approximately $20 \%$.

Over the next 45 days, Council will have the opportunity to continue the review process and recommend further adjustments. Meanwhile, City staff will continue to explore all options - working with financial experts from around the country that have faced similar challenges in other areas. 2015 will be a tough year but we are not alone in this battle. By December $31^{\text {st }}$, we will have a finished product that we can be proud of and renewed faith in the long term financial viability of our great City. I firmly believe that our City is ready for the challenge of what lies ahead.

## History

Because the City is the county seat and the urban hub of the metropolitan area, over thirty seven percent of the real estate value in the City is tax exempt. The tax exempt real estate consists of post-secondary schools, county, state and federal government buildings, a hospital, churches, social service agencies, non-school educational venues and charities, etc. Moreover the agencies that occupy the tax exempt real estate serve large populations who do not live in the City. Every non-city resident who attends college, receives health care, uses state and county government services, attends religious services, receives social services, enjoys entertainment at certain venues, or receives charitable assistance has that service subsidized by the tax paying residents of the City of York. The City has made a concerted effort to collect payments in lieu of taxes from tax exempt properties but these efforts have netted only about $\$ 300,000$ or just $3 \%$ of the revenue lost by tax exemptions. With over a third of the real estate tax base being exempt from tax collections, City residents and businesses alike burden a disproportionate share of taxation comparable to most third class Pennsylvania cities.

Likewise the earned income tax structure is flawed. In 2013, York City residents received earned income of about $\$ 344$ million dollars (from all sources) while commuters earned $\$ 773$ million in the City alone. The only tax revenue received from the commuters is a $\$ 52.00$ annual tax called a Local Services Tax. Each commuter paid $\$ 1.00$ per week to the City, totaling about approximately $\$ 38$ thousand dollars per week in 2013 . However, the cost of providing services such as public safety, traffic signals, street lights, storm water management, etc. was $\$ 750$ thousand dollars per week in 2013. Less affluent City residents are forced to subsidize the conditions that the more affluent non-city residents rely upon for their livelihood. Eighty-eight percent of the 2012 gross wages earned in York City go to commuters who do not pay any earned income taxes on the income they take back to their "home" communities.

## State of the City

The City finished 2012 with a $\$ 4,948,629$ accumulated deficit in the general fund. The deficit increased by $\$ 767,367$ in 2013 resulting in an accumulated deficit at the end of 2013 of $\$ 5,715,996$. At the time the 2014 budget was prepared, 2013 revenue projections exceeded expenditures by $\$ 1,845,773$. However the 2013 audit revealed that general fund expenditures exceeded revenue by $\$ 1,270,808$. The discrepancy was largely due to two IAFF arbitration awards. Half of the award was paid out in 2014 with the remainder scheduled for 2015 . The retroactive pay due from the award spanned a seven year period. Adequate reserves were not maintained to help defray the negative impact the expense had on cash flow and the balance sheet. As stated on page 10 of the 2014 proposed budget executive summary, "In any event the IAFF 2013 award added to the 2010 award is likely to be significant and a hardship for the City to pay."

The continuing trend is for costs to increase, and for revenue to remain steady, as impacted by local trends and the physical and legal conditions that prevail in Pennsylvania. The challenge is to find a way to make an antiquated revenue generating system yield adequate revenue to pay rising costs without further impoverishing the local population while, at the same time, struggling to wring every penny of savings from the City's expenditure obligations. Employee health care, public safety pensions, the Act 111 labor relations process, and the antiquated and inadequate methods by which revenue is raised to pay for municipal services continue to work together to challenge the City official's creativity in balancing revenue and expenditures.

Due to its relatively high level of unfunded pension liabilities, Pennsylvania categorizes the City's pension plans as "moderately distressed". Subsequently, the City was permitted through Act 44 to make use of several capabilities to relieve the financial stress of high pension minimum municipal obligation (MMO) payments. For example, the City was allowed to reduce its normal MMO payments by $25 \%$ for a four year period beginning in 2011. Taking advantage of these special forms of MMO relief, the City MMO for 2011 was $\$ 5.9$ million and was $\$ 6.0$ million in 2012. In 2013, the MMO dropped by $\$ 300,000$ to $\$ 5.7$ million. In 2014 , the MMO increased by just under $\$ 50,000$ to approximately $\$ 5.8$ million. With the expiration of the relief provided by Act 44 of 2010, the 2015 MMO is projected to rise by $\$ 2.44$ million dollars in addition to a $\$ 345,000$ rise in the City's 1995 pension bond annual payment. Public safety costs, particularly police and firefighter labor costs, continue to rise faster than the rate of inflation.

Outside of public safety costs, the general fund budget has increased by $2.54 \%$ over a 10 year period. The administration has managed to keep costs in check with an annual growth rate of approximately $0.25 \%$. And despite reductions in staffing and equipment for the Fire and Police departments, legacy costs continue to increase annual operating expenses at an unsustainable rate far exceeding inflation and the consumer price index. With the $\$ 2.4$ million dollar increase in the MMO for 2015, the City anticipates that the public safety share of general resources will rise to nearly $75 \%$. If this trend continues, then by 2020 Public Safety will consume more than $80 \%$ of the general fund budget.

Since 2008, the City has avoided fiscal calamity by delaying the payment of its MMO to the subsequent year. However, as the shortfall approaches the full amount of the MMO, the ability of the City to continue unreduced operations has reached the breaking point.

## Reflections 2014

## Recreation Fund

In spite of difficult times, the recreation fund improved in 2013 cutting the deficit in half from $\$ 671,476$ to $\$ 353,383$. As of October, the 2014 projections include another reduction of approximately $\$ 30,000$ and the 2015 budget request reduces the deficit by another $\$ 177,398$. At this rate, by the end of 2016 the recreation fund should be restored to a positive fund balance. From there, the City will strive to build a responsible fund reserve balance healthy enough to absorb lean years of revenue and/or dramatic increases in expenses.

## Sewer Fund

As the Chesapeake Bay Watershed Initiative continues and the need for continued maintenance on the infrastructure of our sewer system, sewer rates must rise to meet the ever increasing demands. Despite going through great lengths to control costs at the waste water treatment plant, coupled with realizing increasing revenue collections above historical rates, sewer rates must rise this year by $6 \%$. City residents and businesses alike will pay an additional $\$ 0.50$ per thousand gallons of water service.

## White Rose Community Television

White Rose Community Television suffers a tremendous loss in the 2015 budget. Despite commendable efforts by the Deputy Director of Community Affairs to build strong, lasting relationships with community partners, as of November 2014 WRCT was unable to generate enough revenue to cover expenses for several years in a row. For the time being, WRCT will be reduced to one staff member until additional sustainable funding can be raised to effectively maintain desired operating levels. A request for bids on finding a long term studio partner was advertised in November 2014 and we are currently awaiting responses. We have strong reasons to believe that a deal will be brokered in early 2015. Regardless, the new staffing model will enable the City to recover the negative fund balance incrementally over the next 5 years. Developing a sustainable partnership will hopefully improve studio availability for public access, foster continued improvements in the quality of the work produced, and help generate a sufficient fund balance capable of covering anticipated future capital investments into the studio and equipment.

## Economic \& Community Development

The City has also made significant strides over the past year in pursuit of goals set by the Administration for the Department of Economic and Community Development (DECD). Through partnerships, creativity and community involvement DECD has been able to make strides in its efforts to build a sustainable local economy that has a positive impact on our residents in the form of jobs created, improved housing stock and an ever increasing standard of living
for City residents. The department has also exceled in identifying and engaging in projects with objectives to stabilize neighborhoods that have suffered from disinvestment. Furthermore, through its ability to leverage City funds the department has been able make indelible impacts across the community. Some of these projects include: Royal Square, Salem Square, Northwest Triangle and redevelopment efforts in the Northeast by Think Loud and others. The bid for a City Revitalization Improvement Zone (CRIZ) was unsuccessful but all hope is not lost. The team is committed and continues to work its magic into 2015.

## 2015 Prospective

The proposed cuts to staff and spending will bode well for the City financially moving forward. If we are able to work together to get through this tough year, then better days are ahead. 2014 and 2015 have several large one-time adjustments that will not be included in future years. This includes the fire arbitration award, the new financial management system, and leave time payouts to employees being laid off. York will emerge stronger than ever on the other side of this storm with the financial means to pay down deficits and build adequate reserves to cover future anticipated and unanticipated events.

Therefore, through this budget, Mayor Bracey is proposing a plan to set York on the right track towards financial recovery. The 2013 Management Discussion and Analysis section of the audit describes the many steps taken over the years and the numerous studies completed to identify and remedy the problems. Despite following the recommendations of these highly regarded experts, these strategies only slowed the effects of the problems instead of remedying the causes. These solutions were not enough to overcome the vicious reinforcing cycle of low property values leading to lower tax revenues being generated despite increasing costs. This pattern creates the need to raise taxes in order to raise revenue but in the long term this further reduces the property values, stymies economic development and further perpetuates the never ending cycle of a city trying to tax its way out of a hole. To continue to repeat the same actions yet expecting a different result is not only impossible but it is the very definition of insanity.

## Public Safety Tax

In 2015 with the expiration of Act 44 pension relief provisions, the City is faced with a $\$ 2.44$ million increase in the annual MMO payment and a $\$ 345,000$ increase in the pension bonds debt service payments. Breaking from the norm, the City of York will enact a distressed pension earned income tax provision made possible through Act 205. The City will raise the earned income tax rate for residents and non-residents alike from $1 \%$ to $1.25 \%$. This measure will generate at least $\$ 2.5$ million of additional revenue annually starting in 2015. It is important to note that unlike most taxes, the majority of this revenue will be paid by commuters who previously gave only $\$ 52$ (one dollar per week) in the form of a local service tax.

## Admissions Tax

Despite being on the books since 1967, the admissions tax ordinance was never enforced in York. In recent years, this decision was re-evaluated and efforts were made to start collecting this relatively small, yet significant revenue.

Throughout 2014, several steps were taken to update the ordinance with hopes of creating a platform that was not overly aggressive, yet still able to generate substantial revenue for the City. Those revisions were passed in September and as of January 1, 2015 the York Adams Tax Bureau will begin enforcing the tax and administering collections.

## Contingency Funds

2015 will also mark the first year that a reserve fund is established to begin addressing the $\$ 17.4$ in unfunded liabilities attributable to other post- employment benefits (OPEB) including but not limited to retiree healthcare and deferredcompensation. Similarly, contingencies funds have been established to help offset expected arbitration expenses for anticipated legal challenges to the proposed restructuring of the staffing model in the fire and police departments. In a similar fashion, a $\$ 50,000$ contingency was started for the use of general fund money to cover the historical trend of annual funding shortfalls in the health department.

## Financial Management Software

Spring 2015 will also mark the launch of our new financial management system. Replacing a system acquired in 1998, the City continued the commitment to increased efficiency through automation by contracting with McGladrey Consultants to upgrade the Microsoft Great Plains financial management system to Microsoft Dynamics AX II. This was a recommendation from the 2011 PFM study referenced earlier and the City was awarded a $\$ 150,000$ grant from the state of Pennsylvania for this project. Ultimately, this new financial system will increase revenue by improving collections above existing rates. The ability of the Customer Relationship Management (CRM) system to turn bits of data into useful information creates a stronger tax collector. The system is able to proactively turn information into educational opportunities, outreach and/or audits for non-compliance. Savings will also be experienced by the ability to print timely financial statements in house. Budget decisions will be improved based on timely reporting of year to date revenues and expenses, cash flow projections and regular monthly/quarterly financial reporting to the Administration and Council. The system will also reduce or eliminate the City's current reliance on external contractors to produce annual financial statements. The system will also improve management's ability to make tough fiscal decisions mid-year and improve our ability to meet SEC bond filing continuing disclosure requirements to have the annual audit completed by June $30^{\text {th }}$ each year.

## Conclusion

The City has taken many proactive steps to improve its financial health and put in place the structure necessary for future economic and human capital growth. While the challenges are great, the City is fortunate to have a community of elected and appointed officials, business and non-profit leaders, and citizen leaders, voters, and volunteers who see the incredible potential of the City while continuing to make it hum and tick. Our vision is to become a thriving urban community, and that quest is ongoing.

Notwithstanding the financial challenges that the City faces, citizens can be assured that we will continually look for ways to improvise, improve and innovate. It is our vision that the City of York shall be a thriving urban community
in which every person is welcome to be safe, successful and happy. We will not be ashamed to copy good practices from others nor will we fear trying new things of our own devising. The protection and improvement of the health, safety and welfare of the community is our reason for being. Citizens can be assured that the Bracey Administration holds the long term welfare of the community as the guiding principle of our actions.

Respectfully submitted,

Michael Doweary, EA MBA

## SEWER SYSTEM STRUCTURE DESCRIPTION Intermunicipal Sewer Fund City Sewer Fund

Information on the City Sewer Fund and the Intermunicipal Sewer Fund (IMSF) are presented throughout this budget. This section explains the structure of the sewer and wastewater treatment plant system and the accounting mechanisms for that system.

The City was the creator of the York City Sewer Authority (YCSA). The Authority owns the Wastewater Treatment Plant. In the late 1980's and early 1990's plant improvements were made for biological phosphorus and ammonia removal. This plant upgrade was financed through bond issues in an amount approaching $\$ 80$ million. The City guaranteed these bonds.

More recently the YCSA awarded several contracts to upgrade the wastewater treatment plant and sanitary sewer system. This work included improvements to the biosolids conditioning process, replacement of building roofs, building improvements for the Ostara project, purchase and installation of the Capstone ${ }^{\circledR}$ microturbines, design and installation of an improved computer control system, and modifications to the existing biological process that allows for greater removal percentages for both phosphorus and nitrogen compounds. In addition, a section of the Poorhouse Run sanitary sewer system was replaced. The YCSA funded these projects through bank notes and bond issues. The estimated cost for all of these improvements was $\$ 48$ million. Grant funding was obtained in the amount of \$3,392,100.

The Authority leases the Wastewater Treatment Plant to the City, which in turn subleases a share of that facility to six other municipalities: West York Borough, North York Borough, Manchester Township, Spring Garden Township, West Manchester Township and York Township. Through lease documents and other intermunicipal agreements the City and these municipalities have agreed on how the costs of repaying the debt and operation costs associated with the plant will be apportioned.

The actual costs of operating the plant are shown in the Intermunicipal Sewer Fund (IMSF), a fund maintained by the City, but independently audited and subject to scrutiny by the other municipalities. System-wide debt service is paid through the City Sewer Fund. It is a predetermined amount agreed to by all parties. The revenue necessary to pay these expenses is also shown in this fund. The plant operators are City employees, and their costs dovetail into the City's operation costs. The City apportions certain administrative costs directly to the IMSF.

Each municipality, which contributes to the Wastewater Treatment Plant, does so through a collection system it owns, and in some cases also through City-owned lines if necessary to move waste to the plant. Each municipality generally maintains its own lines, except in the case of major "interceptor" lines, which serve more than one municipality. The costs to repair or replace these interceptor lines are initially borne by the Sewer Authority and later passed on to the contributing municipalities. If a municipality uses City-owned lines, it pays a charge that is used to pay a proportional share of maintaining or upgrading those lines.

Each municipality also sets its own sewer rates, which are separate and distinct from the treatment rates charged by the City to the municipalities. A municipality's rates are based on its share of the Wastewater Treatment Plant costs, plus expenses it incurs in owning and maintaining a collection system.

In the case of the City, revenue from the payment of sewer charges by City property owners is deposited in the City Sewer Fund. Out of this fund, the City pays its charge to the Intermunicipal Sewer Fund, plus its costs of maintaining its own sewer collection system and any administrative costs it may internally allocate to sewer maintenance or revenue collection.

The chart on the following page provides a "snapshot" view of the flow of funds and structure of the system.

## FINDING YOUR WAY AROUND THE BUDGET BOOK

A municipal budget is a financial operations plan that is a prospective. It is a plan for future action and an estimate and allocation of future resources to fund those future actions. The budget contains a large volume of information and can be difficult to navigate. Below is a guide to help you understand this document.

The Introduction contains a message from the Mayor along with general information about the City of York.

In the Summary section you will find the highlights of the previous year and the highlights anticipated for the coming year. Charts and graphs give a quick and easy way to view the revenue and expenditures expected in 2014. Summaries by fund, department, type and cost center are found in this section.

The City is organized in six categories/departments. A description of the department is found at the beginning of each section. Detail to support the numbers found in the Summary section will be found in the Detail area. Both revenue and expenditures are listed line by line. Knowledge of the account number structure is crucial to understanding the layout of the reports.

The City has three Business Privilege Tax appeals in process, one of which is a Commonwealth Court appeal which will incur filing fees and costs for reproducing the record. Also, Kevin Barrett has amounts due to him for his 2014 contract. The City will also incur costs for a hearing officer regarding a September Business Privilege Tax hearing. The Solicitor's Office is expecting travel through the end of 2014 due to cases being argued at Commonwealth Court. Fees for parking and reimbursement for travel will be incurred. The Solicitor's Office anticipates that the litigation account will be necessary for Business Privilege Tax appeals due to the shortage created by the unanticipated expense of the Curative Amendment in 2014. Also, the Solicitor's Office is anticipating costs related to the filing of appeals at Commonwealth Court level and tax assessment appeals at the County

The Solicitor's Office has a Brief and Reproduced record due at Commonwealth Court.
Assistant Solicitor Sabol may attend a conference/CLE course in the last quarter of 2014.
Additional supplies (i.e. folders, pens, large envelopes, etc.) will be needed and purchased in

The Solicitor's Office has four payments due for the remaining Westlaw contract for 2014, in addition to its quarterly PACER invoice.

The Solicitor's office incurred additional costs in 2014 due to the filing of a Curative Amendment, and also an increased amount of Business Privilege Tax Appeals. It is quite likely that the amount will again increase in 2015; however, the budgeted amount from 2014 will not change and is deemed adequate.
The amount budgeted in 2014 will not change, as it was sufficient and satisfactory. The amount requested has not increased since 2012. Reduced
Legal activity and costs cannot be predicted, since much of it is initated by other parties. However, the steady activity in tax assessment appeals and increased Business Privilege Tax audits indicate that expenses should not fluctuate from 2014.
