John S. Senft Fire Chief
Mark L. Whitman Police Commissioner
C. Kim Bracey Director of Community Development
Matthew Jackson, Esq. Director of Economic Development

John S. Brenner Mayor

James E. Gross Director of Public Works
Michael J. O'Rourke, Esq. Business Administrator

#### FINDING YOUR WAY AROUND THE BUDGET BOOK

A municipal budget is a financial operations plan that is a prospective. It is a plan for future action and an estimate and allocation of future resources to fund those future actions. The budget contains a large volume of information and can be difficult to navigate. Below is a guide to help you understand this document.

The **Introduction** contains a message from the Mayor along with general information about the City of York.

In the **Summary** section you will find the highlights of the previous year and the highlights anticipated for the coming year. Charts and graphs give a quick and easy way to view the revenue and expenditures expected in 2006. Summaries by fund, department, type and cost center are found in this section.

The City is organized in seven categories/departments. A description of the department is found at the beginning of each section. Detail to support the numbers found in the Summary section will be found in the **Detail** area. Both revenue and expenditures are listed line by line. Knowledge of the account number structure is crucial to understanding the layout of the reports.

|    | fund                 | - <u>-</u> | dept account             | _ · _      | cost center      |       |              |

#### **Ordinances**

Appropriations Ordinance Tax Ordinance

## The City of York Pennsylvania

50 W. King Street PO Box 509 York, PA 17405 WWW.Yorkcity.org

November 19, 2006

Dear Council Members and all York City Residents,

Our administration is pleased to present the 2007 Proposed Budget for the City of York. The fifth budget of my administration, we have once again proposed a balanced budget as required by the Commonwealth of Pennsylvania. This task has been increasingly difficult as costs for essential services continue to rise and our antiquated system of local governance proceeds without any sign of fundamental reform.

Our work began earlier this summer when department directors and managers entered their requests for spending and projected revenues for the coming fiscal year. They entered their information into our upgraded Budget Based Accounting System. This inventive software interface program gives every city employee with financial management responsibilities real-time accounting data regarding every line item of their individual departmental budget. Thanks to our talented staff in the Information Services Division of Business Administration, this tool continues to improve our financial oversight and management of your City tax money.

As required by Article 137.05 (a) of the Consolidated City Ordinances, we conducted the 2007 Mayor's Public Budget Hearings in September. By the time the hearings concluded, expenditures surpassed revenue in the General Fund by more than \$4.3 million dollars. Our budget team, consisting of the Business Administrator, Michael O'Rourke, Deputy Business Administrator for Finance, Carol Brown, City Accountant, Cherie Alwine and Financial Analyst, Michelle Busch-Young helped prepare and review each area of the budget. They worked tirelessly throughout the process to limit expenditures and increase revenues. They have improved our budget-making process in spite of a tax structure that fails to meet the needs for quality services that citizens expect.

Year after year, your city government is required to be creative and innovative in the delivery of public services. Over the past several years we have eliminated needed capital expenditures in order to reduce the ever-increasing tax burden on our citizens. The 2007 Proposed Budget includes funding for public works vehicles and equipment, upgrades to traffic lights, vital communication equipment and two new police vehicles. To continue our revitalization efforts, improvement projects to leverage other funds include the Roosevelt Avenue corridor, Philadelphia Streetscape, Queen Street Project and the Codorus Park/Boat Basin Project.

A partnership with York College and South George Street Community Partnership will allow us to take advantage of state grants offered by the Governor to add 3 new police officer positions to our compliment. This unprecedented agreement will help improve the perception and the reality of a more secure City.

After eliminating new positions without long-term funding sources and tediously reviewing each proposed revenue and expense, we adjusted the budget accordingly. Facing increases in our delivery of refuse collection, largely due to fuel and personnel costs; we are proposing a \$1 per month increase for single-family homes. Anticipating structural improvements to our wastewater collection system, we have proposed a 0.74 increase per month (.27 per thousand gallons) in sewer rates. Finally, as we implement numerous recommendations from the Commonwealth's Early Intervention Program Report conducted this past year by Public Financial Management, we are proposing a .5 mil increase in the real estate tax. According to numerous taxpayers and sound public financial planners, small increases on an annual basis are most preferred over large more burdensome increases in a given year. In order to fend off projected deficits in future years, this minor increase for 2007 is \$2.08 per month for the average property owner (\$50,000 assessed value). These increases, kept as low as possible by our administration, will place our city in a stronger fiscal position as we go forward.

As a result of this proposal, the average homeowner should expect a \$4.16 per month total increase for 2007. Considering our multitude of financial challenges as a City in our Commonwealth, the minor increases proposed are fair, reasonable and necessary for our future long-term financial stability.

The New Year will bring the continuation of the current Governor's tenure and a large number of new faces to the Pennsylvania General Assembly. The Commonwealth has an enormous opportunity to begin reforming the outdated system of local government we currently utilize. Our administration will continue to work with community partners and state government officials to encourage meaningful reform. In the meantime, we will continue to be good stewards of your resources and remain focused on providing quality services and a revitalized urban community.

Thank you for your good citizenship and your efforts to help move our city forward.

Sincerely,

John S. Brenner Mayor

### The City of York

#### Past, Present and Future

The City of York, located in the Susquehanna Valley at the heart of central Pennsylvania, sits at the crossroads of our nations history. The community has a rich heritage that includes many landmarks in our country's growth. York has produced national leaders and innovators in industry, government and the arts. Located at the intersection of U. S. routes 30 and 83, the community has ready access to the large metropolitan areas of Washington D. C., Baltimore, Philadelphia and Pittsburgh.

At the direction of William Penn, Thomas Cookson laid out the town of York in 1741. York became the first settlement west of the Susquehanna River. The town's early inhabitants were German immigrants. Quickly following were English, Scottish and Irish settlers. In forging our nation's history, York became home to our founding fathers from September 1777 to May 1778 when the Second Continental Congress came to York and while in session adopted the Articles of Confederation that created the United States of America from the thirteen colonies. Hence, York became the First Capital of the United States.

Eighty-five years later, during the Civil War, York's accessibility to road and rail networks placed it in the path of Robert E. Lee's northern advance during the Gettysburg Campaign. This same transportation network allowed the Union forces to establish the largest military hospital in the north in York City.

Rich farmlands, access to transportation networks and a large skilled work force have allowed York to blossom into a diverse industrial community. From the 1800's to the present, York has maintained a strong manufacturing and industrial heritage. By the mid 1950's several of the largest manufacturing plants in the world were located in York City and the surrounding area. This passion for industrial innovation produced such products as automobiles, steam engines for boats and locomotives, turbines, farm implements, pottery and refrigeration machinery.

This economic growth also provided growth and expansion to the city both in physical size and population base. In the 21<sup>st</sup> Century, York City encompasses 5.4 square miles. The U. S. Census of 2000 lists a diverse population of 40,682.

The town situated along the Codorus in 1741 became a borough in 1787; however, it was not until 1887, after much political debate, that York City was born. On September 24, 1887, York became a City with Daniel K. Noell serving as the first mayor. It wasn't until 1962 that the City adopted the Mayor – Council form of local government, which is regulated under the Third Class City Charter Law.

Elected for four-year terms are the Mayor, Council members, Treasurer and Controller. Serving, as the chief executive of the City is the Mayor, while a five member City Council serves as the legislative body.

Presently, a six member cabinet is appointed by the Mayor and includes the Business Administrator, the Director of Community Development, the Director of Economic Development, the Director of Public Works, the Police Commissioner and Chief of Fire and Rescue Services.

The City workforce consists of five unions. The Fraternal Order of Police (FOP); the International Association of Fire Fighters (IAFF); the York Public Employees Association (YPEA); the York City Employees Union (YCEU) and the International Brotherhood of Electrical Workers (IBEW). The professional, supervisory and managerial employees are not represented by a labor union.

The City of York is an exciting place with its rich history and it's promising future. The City is the hub of York County and serves as the County seat. The neighborhoods provide a stable environment in which families participate in community activities. The people are diverse and filled with creative expression. York Arts, the York Symphony Orchestra and the Strand Capitol Performing Arts Center are examples of the City's involvement

in the arts. The past is always present with such things as the Central Market House, Golden Plough Tavern and Antique Row. The newly constructed Commerce Center, the high school and the County Judicial Center add to the strength of the City. Construction of the Sovereign Bank Stadium, as well as the NorthWest Triangle are important investments in the future of York.

#### **EXECUTIVE SUMMARY**

#### Introduction

By 2010, if no changes are made, the deficit in York's annual budget will rise to just under \$5 million dollars. If we provide for accumulating fund balances, developing a capital budget and beginning to pre-fund retiree health insurance, the annual deficit will rise to \$7 million dollars by 2010. That is the forecast of Public Financial Management in a financial management study done pursuant to the Commonwealth of Pennsylvania's Early Intervention Program (EIP).

At the end of 2005 and into 2006 PFM worked with city staff to develop a financial history of the City and to project a five-year financial plan. The report includes an in depth analysis of all departments in the city along with specific focus on public safety and resources to satisfy the unfunded liability in the city's police and fire pension funds. The report concludes that even if the city were to implement every option identified therein that the city would have an annual deficit in excess of \$2 million dollars. The report clearly shows that the single largest impact on the city budget is the cost of public safety personnel and peculiarities of Pennsylvania labor laws contribute to difficulties in managing public safety costs.

The City has commenced evaluating each of the options in the report and has taken the following actions. The City has adopted a parking tax, is in the process of hiring a benefits consultant, is preparing to enforce the admissions tax, has expanded the hours of operation of parking meters, has considered reductions in compensation for elected officials, has commenced programs for market based revenue opportunities, has negotiated a contract with the city fire fighters IAFF Local 627 that meets some of the objectives recommended in the report and has established pay and benefit policies aimed at achieving other labor related goals.

The cause of the looming deficits is not unique to York. In October 2006 the City of Harrisburg, the capital city of Pennsylvania, announced that it was facing a \$14 million dollar deficit in 2006 and an even larger deficit for 2007. There are over twenty cities, boroughs and even counties participating in the EIP program. The problem of funding local municipal services is endemic and is not going away. While there are certainly municipalities that suffer inept management, it is hard to argue that every city in Pennsylvania has elected an incompetent mayor and employs incompetent staff. But there is a commonality among all the cities struggling financially: there is a fundamental disjunction between the economic factors that drive the growth in the costs to provide public services and the factors that determine the resources available to pay the costs.

Local government services, including police, fire rescue services, public health, public works, recreation and community and economic development require people, equipment, material, energy and facilities along with all of the ancillary and support products and services such as banking and financial services, insurance, telecommunications, etc. The costs of the resources are set in the world market-place. The cost of insurance to the City of York is determined by the state of the insurance economy across the country and the world. Hurricanes Andrew and Katrina along with the September 11, 2001 attacks on the World Trade Center, all drove up the costs of all types of insurance including, workmen's compensation, property insurance, liability insurance and stop loss insurance.

The demands for energy and raw materials in China drive up the cost of fuel, materials, and equipment in York, Pennsylvania. Weather conditions in South America, Mexico and Canada influence food prices in York, Pennsylvania. The development of new medical devices, procedures and medications, along with inflation, drive up the cost of health care. The increases in the costs of all of these things, along with factors in the labor market, drive up personnel costs to deliver public services.

Local municipal governments receive money from hundreds and, sometimes, thousands of sources to pay for the delivery of public services. Many of the revenue sources are available for general use while others are earmarked for specific uses. More than 60% of the revenue received by the City of York to pay for municipal services is earmarked for specific uses such as housing, community health care, waste-water treatment and sewer service. Services like police, fire-rescue, street maintenance, general government, financial management and the like, although sometimes funded by specific grants, are, for the most part, funded by general revenue sources. These revenue sources include fees for services, fines and taxes. Fees are tied to the cost of delivering the services for which the fee is charged. The range within which a fine can be set is established by state statute and most of the rates of taxation are established by state statute. The rates of taxation for the mercantile and business privilege tax is limited to the current level; the rate of the emergency services tax was established by the state legislature; the earned income tax is limited to 1% and the city school district and city share the proceeds.

The real estate tax is the single largest source of general revenue from which the city pays for services that include police, fire and public works. Real estate tax revenue is generated by applying the tax rate to the value of the real estate. Revenue from real estate taxes only increases in three ways:

- 1. Increases in the value of the real estate tax base resulting from development. Most suburban communities, especially 2<sup>nd</sup> class townships, are experiencing surges in new housing and commercial development resulting in annual increases in the real estate tax base value which yields increased revenue. The cities, however, including the City of York, and the older 1st class townships are fully developed. And, while some new development, like the Northwest Triangle and the Stadium and redevelopment, like the Greenway Tech Center and Monarch Mills will increase the value of the tax base, the increase is marginal and does not contribute sufficient new tax revenue to the City to meet the more immediate rising costs of services. For example, \$10 million in new business revenue subject to the City Business Privilege Tax yields \$35 thousand in tax revenue. A 3% pay increase for police officers and firefighters costs about \$265,000.00.
- 2. Market forces also influence changes in the value of the tax base. Market forces generally result in a higher value tax base. However, the increased value is generally only realized when the county government conducts a reassessment, once every seven to ten years perhaps. Meanwhile costs rise annually. Moreover, increases in tax base value are not uniform across the county. The city tax base value increase resulting from the 2006 reassessment was about 13% while the increase county-wide was in excess of 20%. An increase of 13% over eight years is 1.625% increase per year, or about \$190,000.00 based upon the projected real estate tax revenue for 2006, far below the annual increase in the CPI over the same period and far below the real increase in costs experienced by the City over the same period.

3. Real estate tax revenue can be increased by increasing the rate of taxation. This is, of course, considered a tax increase, and is the least popular way to increase real estate revenue.

It is always a great pleasure to announce that we are going to hire more people and implement new services with no increase in taxes or fees. But it is not realistic. If the costs of operations are increasing then the resources to pay for the costs must increase too. Over the past five years as we have addressed multi-million dollar increases in state mandated pension contributions, multi-million dollar increases in employee health care costs, multi-million dollar increases in debt payments, and huge increases in costs in all segments of the delivery of city services, we have been forced to take drastic action to minimize the impact on tax and rate payers and at the same time meet the obligations of the City to the residents, visitors and businesses in the city as well as to creditors, vendors and employees. Every revenue source over which the City has control has been increased, some dramatically. At the same time dramatic, and some would say draconian, cuts have been made to City resources. In 2001 the city budgeted for 116 police officers and almost 80 firefighters. In 2006 the City budgeted for 96 police officers, 68 firefighters. City-wide, since 2001 we have eliminated at least fifty positions.

During two very difficult budget years, 2002 and 2003, in the passionate response of the public, we heard repeatedly that taxpayers would rather be subjected to small increases each year rather than years with no tax increase followed by very large increases. The 2007 City of York budget is the first year to implement a policy of adjusting fees and taxes over which the city has control, and which respond only to increases in rates, by the rate of the change in the national CPI from August to August. Implementation of this policy in the 2007 budget will result in increases in fees for sanitation and sewer and real estate taxes for a median valued house of an annual total of \$49.92 or \$4.16 per month. While this is certainly not insignificant, this policy will go far to limit any future shocks in the tax and fee rates charged to home owners and businesses in the City of York.

#### **2006 Budget Reflections**

By far the single most difficult challenge in the 2006 budget was the almost \$3 million dollar increase in the Police and Fire MMO.

The General Fund is where we budget for the resources and expenditures for police and firerescue services and public works. Public safety is the single largest expenditure area. In 2006 the total General Fund expenditure budget rose from \$27,335,511 in 2005 to \$31,363,047 in 2006. Almost the entire increase was attributable to the \$3 million dollar increase in the police and firefighter pension fund MMO, a \$500,000 increase in risk management costs charged to the General Fund, about \$300,000 increase in the cost of refuse collection. The increases in risk management are in the cost of medical, dental and surgical claims and prescription costs. All other line items were maintained at essentially 2005 levels.

To meet the challenge of funding the drastically increased MMO and increases in health care costs several actions were taken:

- 1. All requests for new personnel and capital purchases were removed from the budget.
- 2. All pay increases for current employees, including employees with contractual rights to pay increases, were removed from the budget. The firefighters and police officers refused to forego their 3.5% pay increases and so the complement of police officers was reduced by three from 99 to 96 and the complement of firefighters was reduced by two from 70 to 68. The police and firefighters received 3.5% pay increases. No other city employees received COLAs.
- 3. The revenue potential from elimination of the bulk discount for waste water treatment was budgeted as was the approximate annual debt payments that would be necessary to bond the amount needed to pay for the Inflow & Infiltration project that was budgeted for full payment in the sewer fund. Elimination of the discount and bonding of the project freed about \$740,000 additional for a total of a \$1.740 million dollar transfer from the sewer fund into the General Fund (this was a \$740,000.00 increase over past years' transfers). The development of the I&I sewer projects did not require the issuance of debt in 2006. It now appears that the debt will be issued in 2007 with the first payment due in 2008. Elimination of the bulk usage discount in the sewer rate schedule did not occur until the 2<sup>nd</sup> quarter of the year. The city sewer billing is based upon the water company metered usage. Over the last year or so the water company has been in transition to new meter reading devices and has changed meter id numbers. Some of the elements of the transition have impacted the sewer billing system. Thus revenue from the sewer charges are projected to come in under budget.
- 4. Expenditure budget requests were reviewed line by line and reduced where possible for approximately \$100,000 in savings. Both the overtime line items in the police and fire budgets were reduced. Both of these items are projected to go over budget in 2006.
- 5. The impact of the reassessment on the real estate tax revenue was analyzed to determine the millage to be set by City Council. The reason that the City is ever pressed to increase the Real

Estate Tax rate is that the value of the tax base does not increase: the value of the taxable real estate in York City was \$885,101,968 in 2004 and \$884,572,523 in 2005. In all years since 1998 the tax base value has hovered around the same amount. However, in 2006 a countywide reassessment was implemented. The tax base value in 2006 is anticipated to be about \$998,000,000. The increase in the value of the tax base will yield about \$950,000. The amount of real estate tax revenue received in the General Fund will increase from about \$6,969,619.00 or 25.4877% of General Fund Revenue in 2004 to \$6,696,447 in 2005 or 27.7265%. Overall the total real estate tax revenue received by the City was only 10.1945% of total revenue received in 2004 and is projected to be 10.7513% in 2005. For 2006 the budgeted real estate tax revenue city-wide was \$11,712,791. As of November 13, 2006 the real estate tax revenue received is \$11,334,037.27, 96.77% of budget. Thus it appears that by the end of the year the city will meet or exceed budgeted real estate tax revenue.

From 2002 through 2004 the City's debt service increased by over two million dollars per year. The increase in debt service was scheduled in the prior Administration to increase in the years after they left office. Almost all of the tax increases that occurred in 2002 through 2005 were necessary to pay the scheduled increased debt service. The assumption of the operation of the Ice Arena in November 2003 has added additional debt service costs to the City's resources. However, that amount is budgeted to decline in 2006. The City was required to provide \$69,402 in 2004, \$345,690 in 2005 and is budgeted to provide \$234,606 for 2006, a decline of over \$110,000.

The increase in total cost of providing public services during the period of increasing debt service remained below the rate of inflation. Each year the cost of public safety rises to consume an ever greater share of the General Fund resources: 62.41% in 2004, 63.07% in 2005, and budgeted 66.93% in 2006. This phenomenon has occurred because in an effort to hold the tax rate down the City must reduce other General Fund department budgets to raise the revenue to pay for the rising costs of public safety services.

By far the greatest specific challenges we have had to face in the past five years are the increases in the pension MMOs that we are required to pay and the increases in employee health care costs. The MMO has increased ten fold in the past five years from about \$500,000 in 2001 to almost \$5 million in 2006. Because of the significant increase occurring in 2006 the city has made the MMO payments in installments of \$500.000 per month with a balloon payment to be made in December.

Employee healthcare costs have risen dramatically for the City. We anticipated about a \$700,000.00 increase from 2005 to 2006 notwithstanding the significant increases in the premiums and co-pays that the non-union employee's health plan includes. From the claims experience year to date in 2006 it appears that we will come in under budget in the expense for medical, surgical medical benefits and prescriptions.

#### **2007 Budget Highlights**

The total City of York 2007 proposed budget, including inter-fund transfers, is \$85,281,529. \$2,727,254 over the 2006 adjusted budget of \$82,554,175. The increases are in the General Fund, the Sewer Fund, Intermunicipal Sewer Fund, Internal Services Fund, Sewer Transportation Fund, Sewer Bond Fund. The 2007 General Fund Budget is \$917,000.00 above the 2006 adjusted budget, of \$32.2 million. This is about a 2.8% increase, well below the CPI of 3.6% for the period of August 2005 to August 2006. The increases include increased personnel costs, capital cost increases, increased MMO for the Police and Fire Pension Funds, and increased utility costs.

The MMO in police, fire and O&E pension funds will increase by \$96,000 to \$4,959,063 \$4,627,703 is for just police and fire and is reflected in the General Fund. The total expense for public safety for 2007 is \$21,925,000, or 66.20% of the General Fund. Staffing levels in fire are budgeted at 68 firefighters. In Police the budget provides for increasing the number of officers from 96 to 99, an increase of three using a three year grant from the state of \$150,000 per year and a three year grant from the South George Street Community Partnership, that includes funding from York College, of \$105,000 per year. In addition the South George Street Community Partnership has agreed to fund all three police officers in the fourth year of the program. This program is focused on putting a greater police presence on the street in the southwest area of the City.

The York City Sewer Authority is improving the Wastewater Treatment Plant to meet the new standards for discharge of water into the watershed as adopted by the Commonwealth. This will result in an increase in debt service to the Sewer Authority of between 10 and 20% in 2007. The WWTP budget will increase by about \$300,000 to install some upgrades and to perform some capital maintenance and replacement at the plant. This will increase the sewage treatment charge that the City pays for sewage treatment by about \$100,000 in 2007. The budget includes a bond issue for 2007 to pay for sewer line repair and replacement projects. The cost to the city of these projects is about \$4,000,000. The full cost is higher but some of the costs will be borne by the other municipalities that send flow through the lines at issue. This is the same project that was budgeted in 2006. The project did not move ahead sufficiently to require funding by the municipalities but the funding will be necessary in 2007. The current plan is to fund the project in 2007 through a bond issue with the first payment on the issue being due in early 2008.

Over the past five budgets the City has seen large increases in the cost of employee health care. The City started 2001 with a \$1.9 million dollar deficit in the Internal Services/Risk Management Fund as a result of steep increases in health care costs. In several years the expense for employee health care costs exceeded budget. In 2005 the costs exceeded budget by almost 20%. Based upon the 2006 experience through November, it appears that the expenses will come in under budget for both medical- surgical-dental coverage and prescriptions. Thus the budget request includes the same amounts in those lines for 2007 as in 2006. Notwithstanding, the cost of employee and retiree health care, especially public safety retiree health care, remains a major financial threat to the economic wellbeing of the City. While it is predicted that health care inflation overall will moderate over the next several years, we still anticipate annual increases of 8% - 12%.

Public safety retiree healthcare is the major concern. Under GASB 45, the City will be required to report on its financial statements the liability for Other Post Employment Benefits, i.e. retiree health insurance. The accrued liability for just police OPEB is between \$21 and \$25 million dollars as of December 31, 2005 and the firefighter liability is between \$14 and \$21 million. This liability must be reported on our financial statements for periods after December 7, 2007, which means that for the 2008 budget the City must decide how it is going to fund this liability. What we do to fund that liability will have a direct impact on our credit rating.

In addition to OPEB, the City must continue to struggle with arbitration awards that give more benefits to public safety employees. Just during this past year an arbitrator decided that the City must pay for police retiree Medicare premiums notwithstanding that no such obligation was agreed to by the City in any contract or other document. This means that while the City did receive \$700.00 per year from retired police officers, now that \$700.00 will be consumed by the Medicare premium and the City will still have to contribute money to pay the premium.

For 2007 the City budget includes in Fund 66 White Rose Community Television, the Public, Education and Government access cable television system. With the demise of York Community Access Television a void was created that could have left York without the ability to use the valuable communication potential offered by the cable television system. With the resources provided by Suscom, and now Comcast, and the work of staff and volunteers WRCT is operating channel 16 as a public access channel and channel 18 for government and education. With the fiber optic network that has been created, WRCT can now cable cast live events from all of the school buildings in the city, the Martin Library, government buildings, including City Hall and the County Administrative Services Building and the Pullo Center at Penn State to name a few.

Earlier in 2006, the City hired Steve Busch to work as project manager for WRCT. During his short tenure he has improved the quality of the images and sounds that are broadcast on channels 16 and 18. He has worked to develop partnerships with school districts, municipalities, non-profit organizations, and businesses to transform WRCT into a self supporting regional PEG access system. Unfortunately, with the transition, more and more of the equipment operation and technical troubleshooting and problem solving have fallen on the project manager, leaving him little time to focus on partnership building.

The budget for WRCT includes expenses to maintain equipment and to pay for one full and one part time employee. It also includes expenses for equipment maintenance and replacement, and subscription renewal for services like the castnet community calendar. Revenue sources include grants from the Commonwealth, sponsorships, contributions from Comcast and an allocation of 15% of the franchise fee that the City receives from Comcast. Discussions with the Commonwealth Department of Community and Economic Development regarding grants from the Commonwealth for WRCT have been positive. In fact, DCED staff has been enthusiastic about the various projects that city staff has discussed with them.

Following through on the various suggestions by Public Financial Management for increasing revenue and decreasing costs, as part of the Early Intervention Program, the City has implemented, considered and rejected and is in the process of reviewing and implementing several of the options. The City adopted a parking tax ordinance which is projected to yield \$100,000 in 2007. The City is

preparing to implement the admissions tax, estimated as \$100,000 in 2007. Other options that have been implemented have not been in place long enough to evaluate if they are meeting prediction but we will make that determination after the end of the year.

As stated in the introduction, this budget includes the first year of a policy implementation that will include increasing all City revenue sources over which the City has control by the CPI for the period August to August just prior to the budget preparation. For 2007 implementation of this policy for a median valued house and average sewer bill, translates into \$49.92 per year or 4.16 per month. For the City it translates into about \$1.2 million dollars per year. While not an insignificant sum it is far less than we would face if we struggled along without increasing these rates and then proposed a 40% increase. We cannot pay increasing costs for services with the same level of revenue.

#### Conclusion

When we talk about the City of York, we could be talking about one of two things: The City of York is a 5.2 square mile geographic area in which people live, play, visit, recreate, raise families, etc. Or we could be talking about a governmental organization that is charged with delivering services to the people who live, work and visit the 5.2 square mile geographic area.

The geographic area is in the midst of an energetic transformation from urban malaise into a thriving urban community. There is much evidence to support this assertion: The downtown entertainment district, the Elm Street project, the stadium, the arts district, Monarch Mills, Greenway Tech Center, Susquehanna Commerce Center and Strand Capitol Performing Arts Center are all evidence of growing confidence and investment in the City.

On the other hand, the City of York Government continues to struggle to fund the public services that are demanded and expected by residents, visitors and commuters. The City has the largest police force, largest fire-department and only health department in the county. We have state and county government facilities, social service agencies, hospital and health care facilities and many churches in the city, all of whom are tax exempt and many of which serve constituencies that pay nothing toward the cost of providing city services. Tens of thousands of commuters come to work in the city every day and expect the roads to be passable and that there are public safety resources available to assist them in their need, yet commuters to the city pay only \$1.00 per week toward the cost of those services that they rely upon.

The fundamental problem is that the resources needed to pay for the services demanded do not grow in response to the same economic factors that drive expenses. Consequently cities, boroughs and old line suburban townships continually struggle to find the resources to provide the services that the public wants and that progress is dependant upon. The expenses for providing the services grow so the resources to pay for them must grow also. The days are gone when a mayor could write in his budget transmission letter, "we are going to hire five more police officers, buy ten police cars and two fire trucks and there will be no increase in fees or taxes." If we want the services then we must pay for them. In order to avoid the kind of financial roller coaster that has been the lot of Pennsylvania cities lately, the Commonwealth must provide a proper blend of general tax revenue that provides stability in economic slowdowns and growth in economic up swings, a proper proportionate blend of real estate, sales and personal income tax that would meet that criteria. Until we provide for proper funding of municipal services, municipalities will struggle to provide the services necessary for a stable and thriving urban community.

#### **2007 Budget Process**

August 31, 2006 Budget Process Began

Timeline was developed Budget work file was created

September 12, 2006 Budget Procedure Meeting

Instruction was given to all departments

**September 12 – September 24 Departments Prepared 2006 requests** 

Departments entered and submitted all requests

September 25 – September 29 Finance Review

All requests were reviewed

Documents prepared for Public Hearings

October 2 – October 13 Public Hearing

Department presented their requests to the Mayor

Expenditure requests exceeded revenue by \$4,392,888

October 16 – November 6 Changes and Adjustment Period

**Budget Team made adjustments** 

Reduced capital and new employee requests

Expenditure requests exceeded revenue by \$3,647,399
Real Estate Tax increased to match the cost of living
Expenditure requests exceeded revenue by \$3,203,399

Sewer and Refuse rates were increased to match increase in

operation costs

Expenditure requests exceeded revenue by \$1,921,399

November 7 – November 10 Additional Adjustments

Budget Team made additional adjustments

Expenditure requests exceeded revenue by \$1,371,899

November 11 – November 12 Final Adjustments

Mayor and Business Administrator made final decisions

**Budget** was balanced

November 12 – November 20 Budget Book Produced

#### 2007 Budget Challenges

| New Employee Request  Nine new employees requested to be paid from the  General Fund  | \$218,489   | increase in expense |
|---|-------------|---------------------|
| Benefit Costs for New Employee Request Approximant benefit costs for new employees  | \$150,000   | increase in expense |
| Utility Costs Utility costs increased city wide   | \$95,205    | increase in expense |
| Overtime Overtime increased for Police and Fire   | \$246,127   | increase in expense |
| MMO Obligation  Minimum amount the City is required to contribute to the pension funds.   | \$97,770    | increase in expense |
| Contractual Increases - IAFF Salary increases in current bargaining agreement   | \$90,579    | increase in expense |
| Sewer and Refuse Increase in costs of operation associated with sewer and refuse  | \$1,282,000 | increase in expense |
| Risk Management Increase in cost of employee prescriptions and health care  | \$662,526   | increase in expense |
| Capital Projects  Requests received for equipment and vehicles  | \$911,406   | increase in expense |
| Miscellaneous  Including such things as: cost of living increases for day to day items, off setting revenue entries, corrections to errors discovererd at public hearings, etc. | \$438,786   | increase in expense |
|   | ¢4 402 000  |                     |

\$4,192,888

The original 2007 budget requests include many necessary expenditures that are not within the control of the administration. The budget process began with a more than \$4 million difference between revenue and expenditures.

#### PENSION STATEMENT

#### **UNFUNDED PRIOR SERVICE COST**

|                      | As of<br>Jan 1, 2001 | As of<br>Jan 1, 2002 | As of Jan 1, 2003 | As of<br>Jan 1, 2005 |
|----------------------|----------------------|----------------------|-------------------|----------------------|
| Officers & Employees | \$ (3,992,671)       | (1,853,708)          | \$ (1,703,691)    | \$ (1,290,042)       |
| Police               | 238,409              | 4,965,004            | 7,201,597         | 27,165,106           |
| Fire                 | (478,448)            | 1,699,746            | 3,177,054         | 15,681,704           |
| Total                | \$ -                 | \$ 4,811,042         | \$ 8,674,960      | \$ 41,556,768        |

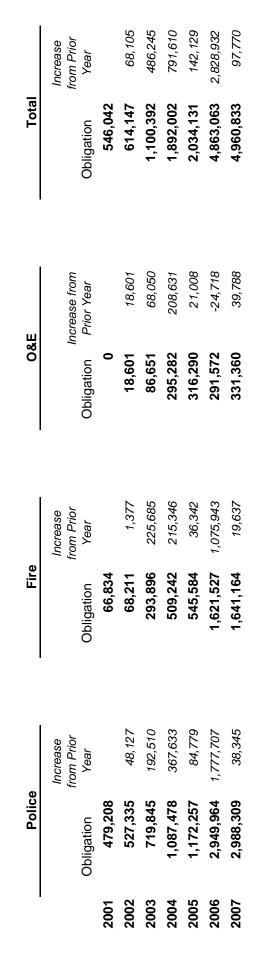

The Unfunded Prior Service Cost is the difference between the estimate of the value of assets that should be in the fund and the actual book value of assets currrently held in each fund. A bracketed amount indicates an "over-funding" of a plan.

#### SEWER SYSTEM STRUCTURE DESCRIPTION Intermunicipal Sewer Fund City Sewer Fund

Information on the City Sewer Fund and the Intermunicipal Sewer Fund (IMSF) are presented throughout this budget. This section explains the structure of the sewer and wastewater treatment plant system and the accounting mechanisms for that system.

The City was the creator of the York City Sewer Authority. The Authority owns the Wastewater Treatment Plant, which was built and improved with almost \$80 million throughout the 1980's and early 1990. The Authority issued the bonds needed to obtain this funding, though the bonds carry the guarantee of the City.

The Authority leases the Wastewater Treatment Plant to the City, which in turn subleases a share of that facility to six other municipalities: West York Borough, North York Borough, Manchester Township, Spring Garden Township, West Manchester Township and York Township. Through lease documents and other intermunicipal agreements the City and these municipalities have agreed on how the costs of repaying the debt and operation costs associated with the plant will be apportioned.

The actual costs of operating the plant are shown in the Intermunicipal Sewer Fund (IMSF), a fund maintained by the City, but independently audited and subject to scrutiny by the other municipalities. System-wide debt service is paid through the City Sewer Fund. It is a predetermined amount agreed to by all parties. The revenue necessary to pay these expenses is also shown in this fund. The plant operators are City employees, and their costs dovetail into the City's operation costs. The City apportions certain administrative costs directly to the IMSF.

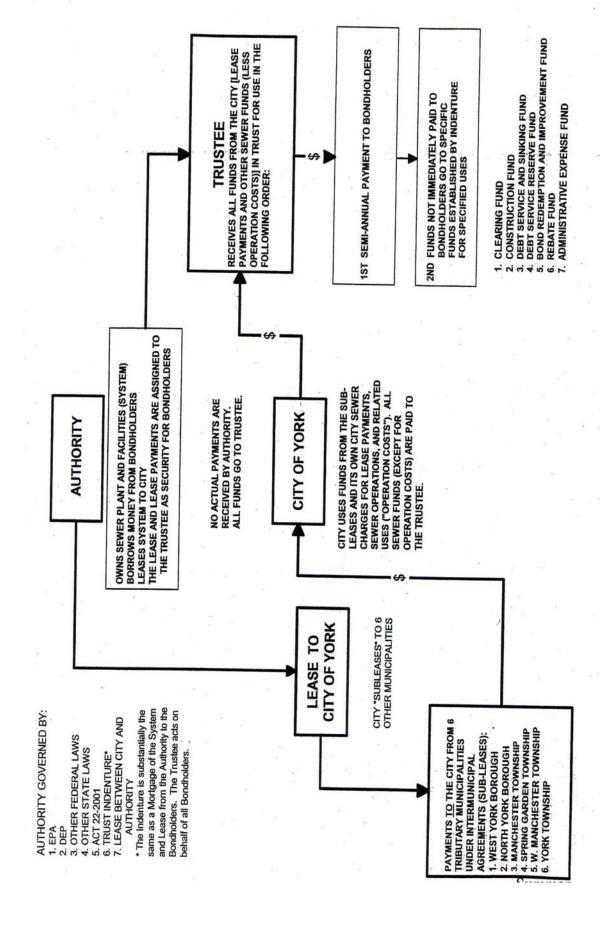

Each municipality, which contributes to the Wastewater Treatment Plant, does so through a collection system it owns, and in some cases also through City-owned lines if necessary to move waste to the plant. Each municipality generally maintains its own lines, except in the case of major "interceptor" lines, which serve more than one municipality. The costs to repair or replace these interceptor lines are initially borne by the Sewer Authority and later passed on to the contributing municipalities. If a municipality uses City-owned lines, it pays a charge that is used to pay a proportional share of maintaining or upgrading those lines.

Each municipality also sets its own sewer rates, which are separate and distinct from the treatment rates charged by the City to the municipalities. A municipality's rates are based on its share of the Wastewater Treatment Plant costs, plus expenses it incurs in owning and maintaining a collection system.

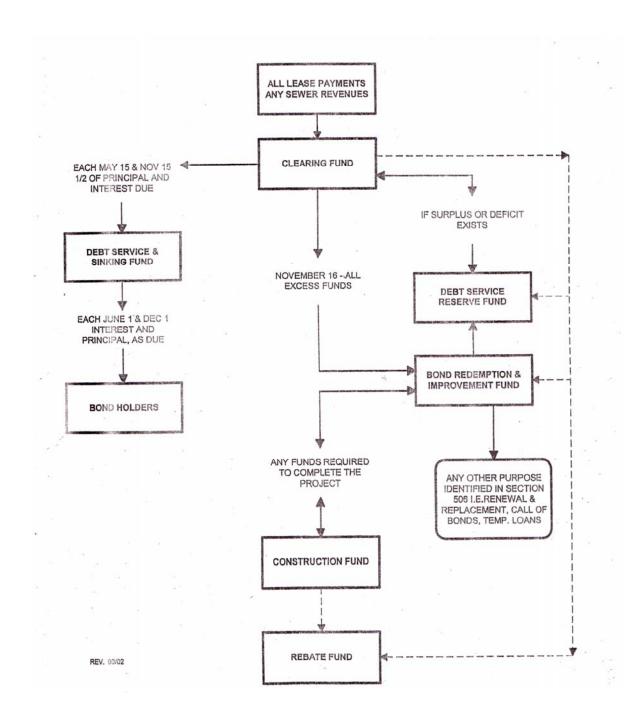

In the case of the City, revenue from the payment of sewer charges by City property owners is deposited in the City Sewer Fund. Out of this fund, the City pays its charge to the Intermunicipal Sewer Fund, plus its costs of maintaining its own sewer collection system and any administrative costs it may internally allocate to sewer maintenance or revenue collection.

The chart on the following page provides a "snapshot" view of the flow of funds and structure of the system.

# YORK CITY SEWER AUTHORITY

#### YORK CITY SEWER AUTHORITY ONGOING FLOW OF FUNDS

#### **Revenue Bonds (Lease Rental)**

Original Amount - \$28,838,670.00

**Sewer Debt Service** 

(as of 12/31/06)

Outstanding Balance - \$8,964,873.00

Issued to upgrade the Wastewater Treatment Plant.

Classified as self-liquidating.

Paid for by City property owner fees and predetermined allocations from the townships and boroughs that use the sewer system.

| 2006 | \$3,232,523.00 |
|------|----------------|
| 2007 | \$3,232,522.00 |

This debt is classified as self-liquidating and is supported by user charges assessed for the use of the sewer system within each municipality. Although these are not General Obligation bonds, the City must pledge full faith and credit.
